

How to Keep Your Digital Footprint Safe

1. Make sure that online information about you is as positive as possible
2. Never share your passwords or personal detail with anyone else
3. If you don't have anything nice to say about someone or something, don't say anything!
4. Only post if you think it's something that could help others or it's something positive that you are really passionate about
5. Don't be part of the problem, if you see someone getting bullied report it, don't add to the issue.
